This book is meant not only for the Sikhs but for all those who are interested to know about a *Gurdwara* (a house of prayer), which is built at a height of 15,210 feet by Herculean effort and thus making an impossible task possible. The Book gives a complete history of the Gurdwara from the search, design, construction, the people behind the project and the pilgrims journey to the Hemkunt. A very informative and handy book, especially for the pilgrims with many beautiful pictures and sketches. A must for every Sikh home.
