Our Price: \$4.95

This second in the Coloring Story Book series is a tale for all children who have felt isolated because their heritage has given them customs that seem strange to others. It is a story of a boy who knows that although people may look or behave differently, there is much that we all share. With his innocence and simplicity, the boy with long hair will warm the hearts of both adults and children. Line drawings can be colored by children so that the book becomes their own work.
