

The Sikh Way A PILGRIM'S PROGRESS

By Dr. I. J. Singh
Paperback, 190 pages
The Centennial Foundation, Toronto
ISBN: 1-894232-09-7
Our Price: \$20.00

As the youngest and fifth largest amongst the world religions, Sikhism has a visible presence all over the globe. The religion inspired yet logical, practical yet mystical, incites considerable interest and attention.

This volume, a second in series of similarly thoughtful essays, tackles further issues that also impact on everyday life. As a Sikh who has lived much of his life in a non-Sikh milieu in North America, Dr I. J. Singh continues to challenge Sikhs and intrigue non-Sikhs.

Following up on the success of the earlier book, which has now undergone two editions and three printings, this volume will prove as well to be of special interest to Sikhs everywhere who are young enough to be inquisitive and questioning about their heritage. It will also serve those who seek to further understand the underpinnings of their Sikh way of life. It will be of particular value to specialist in Sikhism, world religions, comparative religion and culture, interfaith dialogue, and the Sikh Diaspora.
